Tatsuyuki Sekine

Tel: +49 152 59625096 | Email: tatsuyuki.sekine@studium.uni-hamburg.de | ORCID: 0009-0007-7660-6120 | tsekine2.github.io
Gojenbergsweg 112, 21029 Hamburg, Germany

Education

University of Hamburg Oct. 2025 – Present
Ph.D. in Physics Hamburg, Germany

- **Research**: Exploration of high-redshift quasars from the *Euclid Wide Survey* using semi/self-supervised machine learning techniques
- **Advisors**: Dr. Jan-Torge Schindler

Tokyo Institute of Technology (Science Tokyo) Apr. 2017 – Mar. 2019
M.Sc. in Physics Tokyo, Japan

- **Thesis title**: Search for Z' boson resonance with the LHC-ATLAS experiment using machine learning
- **Advisors**: Prof. Masahiro Kuze

Tokyo Institute of Technology (Science Tokyo) Apr. 2013 – Mar. 2017
B.Sc. in Physics Tokyo, Japan

- **Thesis title**: Reconstruction of hadron particles containing heavy quarks with the LHC-ATLAS experiment
- **Advisors**: Prof. Masahiro Kuze

Professional Experience

ELSPINA VEINZ INC. Aug. 2022 – Sep. 2025
Data science researcher Tokyo, Japan

- R&D of satellite remote sensing data analysis for multi-modal, multi-scale, and multi-temporal data

Amanogi Corp. Aug. 2020 – Jul. 2022
Data science researcher Tokyo, Japan

- Development of a large-scale marine debris monitoring system from the geospatial and satellite remote sensing data

Softbank Corp. Apr. 2019 – Jul. 2020
Software engineer Tokyo, Japan

- Development of application software for internal systems

Scholarship

DAAD Research Grants - Doctoral Programmes in Germany Oct. 2025 – Sep. 2028 (extendable)

Publications

here

Skills

Machine learning frameworks : Pytorch, Tensorflow, Keras, Schikit-learn
Programming : Python, Java, C++, JavaScript, HTML/CSS, SQL, Bash
MLOps : GitHub, Docker, AWS, GCP
